Dear Friend:

You can help protect the environment just by monitoring what you toss in your garbage pail.

Proper disposal of household cleaners, oil, and old computer and electronic equipment can help prevent the pollution of our air, drinking water and environment. To do our part, we once again will be holding our *Essex County Household Hazardous Waste Collection Day* and *Essex County Computer & Electronics Recycling Day*.

Help keep dangerous materials from unnecessarily entering our waste-streams. Drive them to our collection site and we will properly dispose them. These important collection days are for **Essex County residents only**.

Dear Administrator Rohal:

We are sending you this letter in support of the Jessica Lunsford Act, and hope that you join us in writing to your legislators who are involved in passing the pending legislation particularly Assembly Bill A2027/S642 & Senate Bill S380.

Enclosed is a letter sent from CUFFS (Communities United for Family Safety), a Galloway Township volunteer group, who are urging us to pass and enact the Jessica Lunsford Act, since the New Jersey State Supreme Court ruled that municipalities cannot designate child safety zones.

Thank you for your support in helping to move the Jessica Lunsford Act forward and enact it statewide to secure the safety & welfare of our children.

Sincerely,

Don Purdy
Mayor

Dear New Jersey State Legislatures:

We the C.U.F.F.S. Committee (Communities United For Family Safety) are sending this letter in support of the Jessica Lunsford Act. We have been in full support of this legislation for many years. We have been to many of your offices lobbying for our State legislatures to get it passed in New Jersey. Now, more than ever, we feel this is the time to pass and enact the Jessica Lunsford Act. As you are all aware, the New Jersey State Supreme Court ruled that the municipalities cannot be in control of designating "child safety zones", which would prohibit registered sexual predators from residing near or loitering in places where children regularly congregate.

Most states have already passed the Jessica Lunsford Act into law. New Jersey is one of only 8 states without this law enacted. We are confused and dismayed as to why our great State has failed to do so. Are our children not worthy of such legislation that will seek tougher penalties on those harboring and abetting registered sex offenders? Are our children not entitled to have designated safety zones, such as playgrounds, schools, schoolyards, daycare centers and such? Does it offend the legislatures to impose mandatory sentencing for crimes in which our innocent children are attacked viciously, suffer rape and even violent deaths? How many victimized children does it take to give New Jersey a wake-up call? Too many have waited too long. The safety of children should be our first and foremost concern and should supercede the rights of any known sex offender.

Therefore, we are now imploring each and every one of you, at this time, to act without haste in getting this act passed so our children and families in New Jersey have these protections and recourses which are duly deserved.

Sincerely,

The C.U.F.F.S. Committee
