

October 13, 2014

Dear Mayor Hughes and Borough Council Members,

I recently got word that Ordinance 1618 was reversed after my remarks at the September 22nd, 2014's town meeting.

I wanted to thank you for your reconsideration into this matter and for seeing it as something that benefits a majority of the residences on Hillside Ave.

Sincerely,
Dan Sliwak

NOTICE TO PUBLIC SERVICE ELECTRIC AND GAS COMPANY ELECTRIC CUSTOMERS

IN THE MATTER OF THE PETITION OF PUBLIC SERVICE ELECTRIC AND GAS COMPANY FOR APPROVAL OF ELECTRIC BASE RATE ADJUSTMENTS PURSUANT TO THE ENERGY STRONG PROGRAM

Notice of a Filing And Notice of Public Hearings | Docket No. ER14091074

TAKE NOTICE that, on September 30, 2014 Public Service Electric and Gas Company (Public Service, PSE&G, the Company) filed a Petition and supporting documentation with the New Jersey Board of Public Utilities (Board, BPU) seeking Board approval for electric base rate changes to provide for cost recovery associated with the Company's Energy Strong Program (Energy Strong).

On May 21, 2014, the Board issued an Order approving Energy Strong in Docket Nos. E013020155 and G013020156. The Order provided approval to invest up to \$1.0 billion, recovered through future base rate adjustments, to harden its electric infrastructure to make it less susceptible to damage from wind, flying debris and water damage in anticipation of future major storm events and to strengthen the resiliency of PSE&G's delivery system. These investments are anticipated to be made over a three-year period beginning on the effective date of the Board's order.

Under the Company's proposal, PSE&G seeks Board approval to recover in base rates an estimated annual revenue increase associated with the capitalized investment costs of Energy Strong incurred through November 30, 2014 of approximately \$1.6 million from the Company's electric customers.

For illustrative purposes, the initial Base Rates including New Jersey Sales and Use Tax (SUT) effective March 1, 2015 for residential Rate Schedule RS are shown in Table #1.

Table #2 provides customers with the approximate impact of the proposed increase in rates relating to Energy Strong, if approved by the Board. The annual percentage increase applicable to specific customers will vary according to the applicable rate schedule and the level of the customer's usage.

Under the Company's proposal, a typical residential electric customer using 750 kilowatt-hours per summer month and 7,200 kilowatt-hours on an annual basis would see an increase in the annual bill from \$1,343.20 to \$1,343.64, or \$0.44 or approximately 0.03% based upon Delivery Rates and Basic Generation Service Fixed Pricing (BGS-FP) changes in effect September 1, 2014 and assuming that the customer receives BGS-FP service from Public Service Electric and Gas Company. The approximate effect of the proposed increase on typical electric residential monthly bills, if approved by the Board, is illustrated in Table #3.

Any rate adjustments with resulting changes in bill impacts found by the Board to be just and reasonable as the result of the Company's filing may be modified and/or allocated by the Board in accordance with the provisions of N.J.S.A. 48:2-21 and for other good and legally sufficient reasons to any class or classes of customers of the Company. Therefore, the described changes may increase or decrease based upon the Board's decision.

Copies of the Company's filing are available for review at the Company's Customer Service Centers, online at <http://www.pseg.com/pseandgfilings>, and at the Board of Public Utilities at 44 South Clinton Avenue, Seventh Floor, Trenton, New Jersey 08625-0350.

The following dates, times and locations for public hearings have been scheduled on the Company's filing so that members of the public may present their views. Information provided at the public hearings will become part of the record of this case and will be considered by the Board in making its decision.
