

Updated COVID-19 Booster Doses

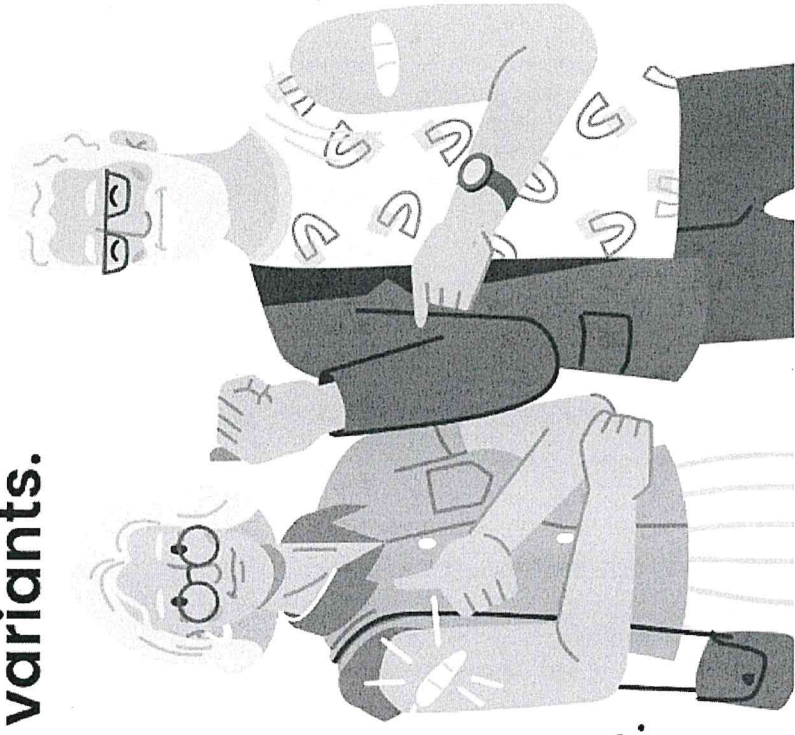

New boosters are now available to provide increased protection against Omicron variants.

When to get the updated booster

At least 2 months after your last COVID-19 dose
– either a booster dose or your primary series.

Who should get the updated booster

Individuals age 12 and up are eligible for the updated Pfizer booster, and adults age 18 and up are eligible for the updated Moderna booster.

CDC recommendations as of September 1, 2022
